

FXAS 65 Series

Fixed Length

- FXAS 6532 - 32" Complete Kit
- FXAS 6536 - 36" Complete Kit
- FXAS 6542 - 42" Complete Kit
- FXAS 6548 - 48" Complete Kit
- FXAS 6560 - 60" Complete Kit

Features

- Pre-pitched channel with fixed lengths and fixed center outlet
- Indoor or outdoor use
- 16 gauge, 304L Stainless steel channel
- 12 gauge, 316L stainless steel Wedge Wire grate
- Works with 2" clamp down floor drain with 2" throat/strainer size (*NOT included*)
- Compatible with: PVC Liner, Rubber Liner (Chloraloy®), Hot Mop, Lead Pan, Copper Pan, or Fiberglass
- Grate can be removed completely for cleaning
- Flow rate - 9 gpm per outlet
 - Flow rate measured at outlet only. Measurement does not account for water in channel or sheeting on shower floor.

Installation

Care & Maintenance

FXAS 65 stainless steel linear drain top grates are made of 316L stainless steel. This material is non-porous, hygienic, rust-free and extremely durable. Bar Keepers Friend® and Soft Scrub® are commonly available products that can be used to protect and clean your Satin Stainless drain cover. For stains that have been left for an excessive amount of time, stronger cleaning agents such as Steel Brite® may be needed. For Polished Stainless and Oil Rubbed Bronze we recommend a mild soap and a soft cloth for cleaning. DO NOT use any abrasive cleaners, scrub pads or all household cleaning agents, such as bleach, to sit on the drain cover for a long period of time. Stainless steel does not rust. External factors, such as contamination from other highly ferrous metals, built up road salt, sea salt, or chlorine may have caused "surface" rust which can be removed using Barkeepers Friend®, Soft Scrub® with Bleach, or Steel Brite®. Always follow the directions on the bottle. Follow proper maintenance procedures to prevent excessive surface rust. In areas of frequent exposure to salt, chlorine, and other chemical compounds, maintenance of the stainless grates should be performed at least 2-3 times per year.
